Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. Applicants' Response to Office Action, received 24 July 2009, is acknowledged. Claims 1, 8, 9, 11 and 14 have been amended.
2. Claims 1-15 are pending and under consideration.

Rejections Withdrawn

3. The rejection of claims 1-15 under 35 U.S.C. 112, second paragraph, as being indefinite for "over-attenuated", is withdrawn in light of the amendment of the claims.
4. The rejection of claims 9 and 10 under 35 U.S.C. 112, second paragraph, as being indefinite for "derived", is withdrawn in light of the amendment of the claims.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Newly amended claims 1-15 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

As newly amended, the claims are drawn to a vaccine comprising a live, over-attenuated *O. rhinotracheal* strain which is not capable of inducing a protective immune response to *O. rhinotracheale* in animals primed with "a virulent pathogen".

According to this, indicator animals are primed with any virulent pathogen. However, the specification (lines 27-29) states that a primed animal is an animal that has received, prior to administration of the vaccine, a virulent pathogen that predisposes for infection with a secondary pathogenic bacteria.

Art Unit: 1645

Thus, the claims are drawn to any virulent pathogen for priming, while the definition of "over-attenuated" taught in the specification, is based on priming with a particular subgroup of virulent pathogens, i.e., those which predispose for infection with a secondary pathogenic bacteria.

Clarification concerning which type of priming pathogen is utilized for defining what is "over-attenuated".

Conclusion

6. No claims are allowed.

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a).

Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
